Abstract:
Please provide the abstract statement of your research work in this section.

Introduction:
You are meant to introduce your research work briefly in this section. Just elaborate your abstract a little more to clarify the topic of your research.

Problem Statement / Research Objective:
Here you have to describe your problem statement briefly. After problem definition a small expression should illustrate background of the problem.

Methodology:
In this section you have to describe the research methodology you have used for your research (i.e. what steps you have followed during research)

Initial Results / Conclusion:
In this section, please conclude by describing the initial results produced as a result of your research.
